

Nazeerahmed Jinnah

Results-driven professional with 3 years of experience in high-volume retail management and sales, consistently achieving a 95% customer satisfaction rate. Eager to transition expertise in communication, problem-solving, and POS systems into a dynamic role where I can apply newly acquired Full Stack Development skills (JavaScript, Python, HTML, CSS). Seeking a challenging position that combines technical learning with professional growth. Currently pursuing a course in Python full stack development with IT Varsity

Looking for:

Entry-level Software/App Development or Full Stack Trainee position within the Technological industry, utilizing both retail operations knowledge and development skills.

Skills:

- Full Stack Development (Entry-level: JavaScript, Python, HTML, CSS)
- Customer Service & Sales (Achieved 95% satisfaction)
- Inventory Management & POS Systems (Compubyte, Touch365)
- Time Management & Cash Handling

Experience:

3 years in retail, including a Manager role at Zary Steel and Pipe (2022–2024), overseeing sales, stock control, and achieving high customer conversion. Currently a Sales Assistant at Takolia's.

Lenasia (Willing to work on-site / hybrid)

Availability: 30 days (Current role is Sales Assistant)
